OF LOCAL INTEREST

CONGREGATION EMANUEL.—Congregation Emanuel will hold services in Melzer's hall this evening at 7:30. Rev. Hofstadter will preach upon the text, "Cupidity is the root of many evils." A large attendance is desired.

SURVEY APPROVED.—Mineral Survey No. 2863, Arizona Mascot, Arizona Mascot No. 2, Arizona Mascot No. 3, Arizona Mascot No. 4, Arizona Mascot No. 5 and Arizona Mascot No. 6, lode mining claims, situated in the Tiger Mining District, Yavapai county, Arizona, and claimed by the Lake Superior and Nevada Development company, has been approved by the surveyor general.

A CLUBMAN CAUGHT.—Charles Rivers, manager of the Horseshoe Club, an organization formed for the decoration of colored citizens at Seventh and Jefferson street, was arrested yesterday on the charge of selling liquor without a license. He was locked up but late in the evening he was released on bail. The club has a license for dispensing liquor to its members, but Rivers is accused of having been selling promiscuously to whoever was thirsty and had the price.

A COINCIDENCE.—Two Mexicans were creating a disturbance of the peace on the street yesterday and were taken into custody by Constable Murphy. They were taken to jail where they were searched. From the pocket of one of them were taken a watch and a knife. The other watched the proceedings with increasing interest and then accused his companion of having robbed him. It turned out that the watch was true though he had not recognized the thief until he saw the inventory of his belongings.

THE SOLICITUDE OF A FRIEND.—Jake Miller came to town in haste yesterday to make inquiry regarding an accident that he had heard had happened to his friend Willis Graham who he understood was in a hospital at Los Angeles. That was the bare fact that had been learned at the Miller ranch; Mr. Miller was after details. He said later in the evening that the thing happened in this way: Some valley rancher was making up a car load of hogs for Los Angeles and one of them died or got away on the way to the stock yards at this place. Thus the car was a hog short and Mr. Graham offered himself as a substitute. At some point along the line, in the neighborhood of Indio, Mr. Miller thinks, Mr. Graham got down and the rest of the shipment stepped on him so often and so hard that when he was removed from the car at the point of destination he was taken to the hospital. It was his intention when he left here to go on to San Diego and make Hi Eldred a visit.

NEW NOTARY.—Silas St. John was appointed a notary public yesterday for Yavapai county.

DOING NICELY.—Henry Ecker, who had four ribs broken by falling from a chimney scaffold last week, is doing nicely and it is expected will fully recover in a short time.

DEATH OF A VETERAN.—Ira West, a veteran of the civil war and a pensioner who had been ill for some time, was removed to the county hospital yesterday morning and died soon after his arrival there.

SOLD PHONEY JEWELRY.—Two typical hoboes with a stock of phoney jewelry, which they were disposing of at cut-rate prices to the gullible public, were arrested yesterday by Policemen Troutman and Assistant Street Commissioner Fowler. They were lodged in the city jail and their stock locked up in Marshal Moore's safe.

RECEPTION TUESDAY NIGHT.—The vestrymen of Trinity Episcopal church are proceeding finely with their arrangements for the reception to be given next Tuesday night in the Arizona School of Music, in honor of Bishop Atwood, who is expected home on Monday. The reception will be public and all friends of the bishop are invited to attend.

ROOSEVELT ROAD.—Engineer W. A. Farish has completed an inspection of the Roosevelt road and found it in fine condition except in a few places where a little repairing is quite desirable. A force of men has been assigned to the work and it is expected everything will be in the pink of condition by March 17, when Mr. Roosevelt is given a ride over it.

JACKING AT RAY.—Daniel C. Jackling, vice president and general manager of the Ray Consolidated Copper company, passed through Tempe yesterday on his way to Ray and Hayden. It is expected that during the next two or three days the Ray Con. concentrator at Hayden will commence operations, and Mr. Jackling will be present to see the first concentrates come from the furnaces.

Y. M. C. A. BUSINESS MEN'S LUNCHEON.—The chairman of the luncheon committee, Dr. Norton wishes all who have taken tickets for sale to report to him not later than nine o'clock today as the limit on tickets has been sold and it is essential that he check up before the luncheon so that seats may be provided for all who have tickets. The time occupied will not be over that of the usual lunch hour and all ticket holders are requested to come promptly at twelve o'clock.

LEMON CLUB DANCE.—Dandolph McElhenny and Harold Herwig of the high school have arranged for a dance at Melzer's hall tonight. Invitations have been issued to all the "Smith Family" and a few others of the younger social set. The Massie orchestra has been engaged to furnish the music and a jolly good time is in store for all who are fortunate enough to attend. It will be the first experience of Messrs. McElhenny and Herwig as hosts but they have read all the latest works on the subject and expect to entertain their guests in real "400" style.

HELD TO THE GRAND JURY.—The business of the next grand jury was perceptibly increased as the result of proceedings in Justice Johnston's court yesterday afternoon. Frank McMahon charged with robbery from the person was tried first and was held in the sum of \$500. McMahon was caught with his hand in the pocket of James Clark. He was fishing for a roll of bills which he knew Clark had. James Patterson, who took from the vest pocket a letter containing several checks for the employees of the Eastern Sugar company was also bound over. He took them and cashed one of them. He was captured a couple of days later. He is held to the grand jury in the sum of \$600.

UP-JOURNEY ENDED.—Admiral W. A. Farish, who has charge of the fleet composed of the dredge and excavator employed in widening the Arizona canal, announces that the dredge has completed its perilous voyage from the Arizona falls back to the head of the canal. Though it was long and tedious only once was actual calamity impending and that was when the good ship went high and dry on a shoal, through the breaking of a lock below. The receding water left the boat on a high place in the bottom of the ditch and she bowed her back up like a cat meeting a strange dog, but the timbers were strong, and the boat weathered the situation until the life saving mules could be brought into action and pull the dredge off its perch.

CARLOAD OF FORDS.—Ed Rudolph, local agent for the Ford, is having a hard time keeping stocked with cars, but he received a carload two or three days ago and hopes that it will last him a week or so, anyway. Two of the new cars are "torpedo" runabouts, two are touring cars and one is a roadster. One of the tourists has already been sold to Mrs. Keller of North First avenue and Ed is receiving so many inquiries that he knows the others will be gone in a short time. Already he has made inquiry of the factory as to when he can get another carload. Though the last carload is of model "T" cars, the machines are slightly different from the Fords Rudolph has sold heretofore. The bodies are of metal instead of wood and there are other slight changes.

POSSIBLE BASEBALL GAME.—The boys of the Phoenix high school baseball team were pretty sore last night. Two efforts to get games had proven unsuccessful. Manager Warren Parker telephoned to Prof. Cash of the Tempe high school, only to learn that some of that school's best players had been barred by the faculty from playing baseball because of low standing in their studies. Prof. Ayer of the Normal said that his team was disbanded and wouldn't play any more this year. As it is known that the day before he made an effort to get a game with Tempe high, the P. H. S. boys feel that the Normal disbanded in a big hurry. They have not yet given up hope and are willing to play either at Tempe or Phoenix tomorrow or a week hence. They offer to pay the expenses of the Normal boys if they will come to Phoenix.

Good Spring Tonic

"We have taken Hood's Sarsaparilla for a spring tonic and as a blood purifier. Last spring I was not well at all. When I went to bed I was tired and nervous and could not sleep well, in the morning I would feel twice as tired; my mother got a bottle of Hood's Sarsaparilla, which I took. I felt like a new person when I had finished that bottle. We always have some of Hood's medicines in the house." Hilvey Roselle, Marinette, Wis.

There is no "just as good" medicine. Insist on having Hood's. Get it today in usual liquid form or chocolate tablets called Sarsatabs.

CARLOAD OF FORDS.—Ed Rudolph, the local agent for the Ford, is having all kinds of trouble keeping stocked up with cars, but he received a carload two or three days ago and hopes that they will last him a week or so anyhow.

MISS HERRETT BETTER.—Miss Zona B. Herrett, who has been quite ill for the past week, is understood to be on the road to recovery. She suffered an attack that threatened to develop into pneumonia.

THE PROGRESSIVE FARMER.—No. 1 of Volume I of the Progressive Farmer and Home Builder, a new monthly publication in this city, is now off the presses and finding its way among readers and present and prospective subscribers. It is a sixteen-page paper about 10x14 inches, issued in magazine form, and is well illustrated. The paper is devoted to general farm, dairy, stock and irrigation interests and carries several departments, which it is planned to increase in size and number. W. W. P. McConnell is editor and manager and is an experienced newspaper man, having spent a large part of his life in conducting agricultural journals. He has had this valley under observation for a year or two and finally decided to make it his home. Publication was delayed by a deplorable incident, the sudden death of Mrs. McConnell in their Minnesota home, to which he returned for the time being. Mr. McConnell will have the assistance of a number of capable writers in the conduct of his journal and will also present special articles from time to time. The initial number has among its features an article by B. A. Fowler, president of the National Irrigation congress, on the Salt River Valley. The citrus department is conducted by Burle J. Jones, an expert in citrus culture. Other articles are by A. M. McBride of the experiment station, A. W. Merrill, entomologist of the horticultural commission, and J. S. Day, who has charge of the cattle department. Hattie N. McConnell conducts a department to be known as "In Woman's Realm."

WOMEN IN TRADE.

In Denmark women of good social position are giving more attention to trades than to business or a profession, which is usually so attractive to women in other countries. Instead of adopting those occupations which are so common to women of other nations, they are serving as apprentices in work shops, such as cabinet-makers and other trades. The daughter of a very well known physician is a professional silversmith. There are several women who are regarded as specialists in wood carving. In Copenhagen there is a firm of cabinet-makers composed of three ladies who are not only partners but superintend their own work shop.
